Hongkong, 25th November, 1870.

SHANGHAL The despatch from the Chamber of Commerce to the Committee of London Merchants has been published, and is given at length elsewhere. Energetic mensures are being taken to provide for the destitute Chinese in the settlement, and the old difficulty of finding labour for them, which is considered an indispensable element in affording relief, has been the subject of some disonsaton. Beyond this, there in little local news to report. The Circus Company, who it may be recollected had so difficult a journey to the model settlement via Mongolin, uppear to be giving great satisfaction, and are declared to be admirable equestrians. BALLOONS IN WARFARE. In the event of the siege of Paris being prolonged until provisions grow scarce, it may be worth while for the friends of the besinged from balloons by meins of parasbutes into the city. Large quantities of Liebig's extractum carnis might descend in this manner, and would be very acceptable when everything clas is eiten up. We are credibly informed that in the latter part of last century M. Blanchard, the aeronaut, when ascending from Strasburg, dropped a dog connected with a parachate from the height of 8,000 feet. Unfortunately, however, a whirlwind interrupted its descent, and the faithful animal was carried above the clouds, M. Blanchard. afterwards met the dog in the sky, who recognizing his master, began to bark; but just as M. Blanchard was going to seize him, another whirlwind auddenly carried the parachute beyond his reach, and the dog disappeared in othe heavens. Let no hope he found a refuge ultimately in Sirius. In the meantime, we must earneally hope that the science of perostation will not be carried too far, otherwise we may have occasion to consu boasting of the security we enjoy by our insular position. VIBRATORY MOVEMENT OF MATTER.-The following illustration, mays Prof. Henry, of the vibratory morement of matter is attested by Prof. Horsford, of the United States. The top of the high tower which constitutes the Banker hill monament inclines towards the west in the morning, to the north at mid-day, and towards the east in the afternoon. These movements are due to the expanding luftuence of the Cun, us it warms, in succession, the different sides of the structure. A similar but more marked effect is produced on the dome of the Capitol at Washington, as indicated by the apparent motion of the bob of a long plumbline, fastened to the under side of the roof of the rolunds and extending to the pavement beneath. This bob describes daily an ellipsoidal curve, of which the longer diameter is four dr five inches in length. By molecular actions of

The France gives an account of a new murderous missile recently tried at Paris, the the results of which were so fearful that it is said the authorities besitate to adopt it. The missile is called the Satin Frace, and appointed to test the merits of this invention to recommend its use, except in reprisal for suployment of similar destructive compounds

COMMERCIAL INTELLIGENCE. NOVEMBER 26TH, EVENING. The market for Bengal drug has been steady; with a moderate native demand at \$5424 for Patna, and \$5224, Benards, on oredit torms, against which cash sales have been made at \$587) and \$518), respectively. No change in

NOVEMBER 27TR. EVENING. A better feeling but existed thoughout the day n the drug market for Bongal. At the opening Patna changed hunds at \$5381 to \$540, on time, due Soth instant, but under the influence of spoulative operations it has advanced, sales of Patna, have been reported at \$5471, and Benares, at \$5275, on credit terms to the Chinese. Should clearances go on, rates in all likelihood will further advance, us some of the operators for low prices have yet to replace their sales, Bargain chops, to some extent, with the paid up amount of \$73 to \$125 per chest, have been from time to time manuel of the 10th, lith; and 13th sales drug, the buyers baving the extime between this and the arrival of the drug. within three weeks. The following may be taken as the ruling quotations on dash terms, with a firm market and rising tendency :- Patna, \$5421 to \$5433; Benares, \$5221 to \$523; Patna, on time, 10th sales \$5432 to \$545; Patna, on time, of the 11th sa'es at \$545; Patna, on time, of the 12th sales, \$5474 to \$550; Patna new, on time of the 12th Patna, now of the lat sales on time, at \$525, moted. No change in Malwa.

NOVEMBER 28TH, MORNING. No change at present in the drag market he tendency, however, appears to be upward.

POR scope and practical service this Work stands unrivalled. All the new words which the Ohinese have of late years been com-CUMMERCIAL BANK BULLDINGS, pelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extense. Each and every word is fully illustrated and explained, forming exer-cises for students of a most instructive nature. Both the Court and Punti pronunciations are given, the accents being carefully marked on the best principle hitherto attained. The typo-graphy displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those vast margins and vacant spaces which liave heretofore characterized Chinese publications. The scope of the work is to great, and its utilitarian purposes so complete, that a re-ference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found PRICE: In Paper Wrappers. 31,50 indispensable to all Europeans residing in Neatly Bound. 32,00

LOTTERY LOANS. The last number of the Journal des Econo. mister contains an interesting contribution by M. Michel Chevalier, on the subject of "Lottery Linna," in the abape of a report to the Senate on a pitition for the total prohibition of such loan . The report disposes very effectually of the projetice against attaching "drawings" to lua is, based on the assumption that these loans are only Ditteries under abother name. They

are free from those incidents of lotteries, which winks their influence so mischievous. The charectoristic of the lettery was that the grawden gave up a capital sum entirely, with only the chance of getting back a large amount, and that thu best chances were reserved to the bolder of the lattery who occupied the position of a banker at a gaming table. Themas these incidents which made lotteries only a form of gambling neculiarly futal to the masses from the facilities they gave and the authority of the governments which issued them; but in lottery loans the drawings are only a minor, feature, Only a portion of the interest promised is converted into this shape, so that those who subscribe clement of gambling thus enters very slightly, and without involving those risks which make ordinary gambling so dangerous. M. Chevalier in cleansed by i mists, however, on the expediency of preinterest being appropriated to drawings. So large a portion might be dealt with in this if not their capital, at least the interest upon it for an indefinite time. To meet the difficulty the plan of limiting the portion of interest which could be so dealt with to the amount alove 3 per cent. has been proposed and this plan was adopted by the French Chambers in authorising the loan for the Suez Unnal. Still, this is not sufficient. A fixed rate of 3 per cont. is very low, and it might often happen that the sum promised in promining would be a balf or two-thirds of the whole amount appropriated for interest and drawings; Another plan is to limit the draw. ings to I per cent, of the capital, but this is also the only verging unsatisfactory as an arbitrary limitation. In that are really stead, M. Obevalier suggests that the sum reserved for drawings should be a certain per-ed, so that the amount to the drawings in re- the extraordinary success of Bristol's Pills may Above 6 months the full annual rate. lation to the capital would only be large when in a great measure be ascribed. It is necessary the interest was high. These suggestions of themselves help to show the harmleaness of loans with drawings, which of this mode of attracting money. - Economist

#### THE LOOMING DIFFICULTY WITH CHINA. (Bullionist.)

There exists, naturally and justifiably, a strong feeling of mingled discontent and indignation on the part of that large and important acction of the mercantile community interested in our commerce with China, at the apathy exhibited by our Government with respect to the atrocious massiore, three months back, at Tiontein. The victims in that horrible affair word Fro ch, it is time; but the interests and position of all Europeans in China are indissolubly bound up together, and must stand or full together. The faraticism of the Chinese rabble, and the treacherous malignity of the mandarins, recognise no distinction.
